

EvidenceNOW: Building State Capacity to Advance Equity in Heart Health

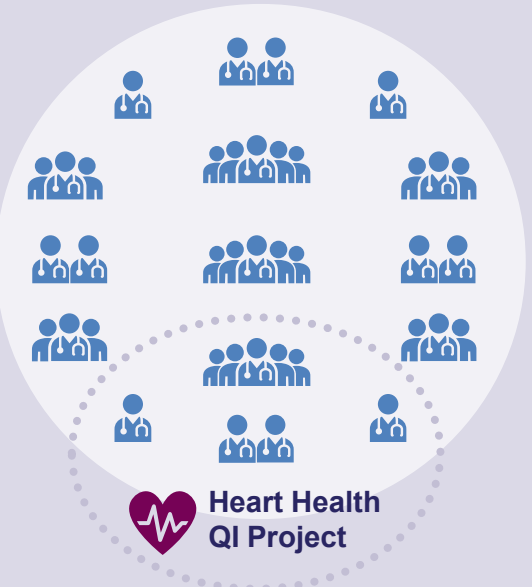

State-Level Cooperative

External Quality Improvement Support

- Practice Facilitation
- Health Information Technology Support
- Shared Learning Collaboratives
- Expert Consultation
- Data Feedback and Benchmarking

Statewide Network of Primary Care Practices

Grantees create cooperatives that serve as the sustainable, state-wide infrastructure to support primary care practices. The cooperative and its partners offer a range of external support services to practices and engage primary care practices across the state to build quality improvement capacity and implement evidence.
