

Project Evaluation and Debriefing

What is the purpose of this tool? The purpose of the project evaluation is to:

- Identify factors that contributed to the team's success.
- Identify factors that hindered the team's success.
- Identify additional clinical areas in the organization where the best practice can be implemented.
- Identify any followup work that may be needed.
- Determine how the results of the project will be communicated.

Who are the target audiences? The project liaison will be the primary individual to work with this evaluation and debriefing tool, but it also should be used by the entire improvement project team.

How can the tool help you? Upon completion of the project evaluation, project teams will accomplish:

- Project closure.
- Recognition of lessons learned.
- Plans for future activities (if applicable).

How does this tool relate to others? This tool is used to evaluate the effectiveness of the D tools for implementing performance improvements, as well as other aspects of the hospital's initiative.

Instructions
